Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: X7
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: Cryolipolysis Fat Reduction Machine
- Certifications: CE
- Type: Slimming Machine
- Work Model: Pulse
- Frozen Head Pressure: 0-100kpa
- Stationary: Yes
- Treatment Areas: Abdomen, Thighs, Arms, Love Handles, Back
- Handle Screen: 3.5inch
- Temperature: -15~5 °C
- Highlight: Cryolipolysis Fat Reduction Machine,
Cryolipolysis Fat Freezing Machine,
Cryolipolysis Fat Freeze Machine

Product Description

12 In 1 State Of The Art Pulse Cryolipolysis Fat Reduction Machine With -15-5U2103 Cooling Temperature

Product Description:

The Cryolipolysis Slimming Machine is a non-invasive, pain-free solution that targets fat cells through a process called cryolipolysis fat freezing. This process uses controlled cooling to freeze and eliminate fat cells, leaving you with a slimmer, more toned body. The Cryolipolysis Slimming Machine is a versatile device that can help you achieve your weight loss goals in a variety of ways. It can be used to reduce fat in the abdomen, hips, thighs, back, and arms, making it the perfect solution for anyone who wants to slim down and feel more confident.

In addition to its fat freezing capabilities, the Cryolipolysis Slimming Machine also features laser diode AlGaInp 635-650nm wavelength technology, which helps to stimulate collagen production and tighten skin. This makes it an excellent choice for anyone who wants to improve the appearance of sagging skin or cellulite.

The Cryolipolysis Slimming Machine is also equipped with lipolaser diodes liposlim for fat removal, which helps to break down fat cells and promote weight loss. This technology is particularly effective when used in combination with cryolipolysis fat freezing, as it helps to ensure that the fat cells are eliminated from the body more quickly and efficiently.

Overall, the Cryolipolysis Slimming Machine is an excellent choice for anyone who wants to achieve their weight loss goals quickly and safely. Whether you're looking to slim down your abdomen, hips, thighs, back, or arms, this HIFU slimming machine has got you covered. So why wait? Invest in the Cryolipolysis Slimming Machine today and start enjoying the benefits of a slimmer, more toned body!

Features:

Product Name: Cryolipolysis Slimming Machine

Type: Slimming Machine

Cavitation: 40K

Laser Wavelength: Laser Diode AlGaInp 635-650nm

Stationary: Yes

Service: OEM ODM

Technical Parameters:

Technical Parameter	Description
Treatment Areas	Abdomen, Thighs, Arms, Love Handles, Back
Service	OEM ODM
Stationary	Yes
Lipolaser	Diodes Liposlim For Fat Removal
Laser Wavelength	Laser Diode AlGaInp 635-650nm
Certifications	CE
Frozen Head Pressure	0-100kpa
Temperature	-15~5 °C
Work Model	Pulse
Functions	Weight Loss

Applications:

Cavitation Body Slimming Machine

The Laser Freezing Weight Loss Machine is a perfect solution for individuals who want to get rid of stubborn fat in specific areas of their body, such as the stomach, thighs, arms, and waistline. It uses a combination of laser diode ALGAlnp technology and a frozen head pressure of 0-100kpa to freeze the fat cells in the targeted area, causing them to die off and be eliminated from the body naturally. This process, known as cryolipolysis, is a non-invasive alternative to liposuction and has been proven to be effective in reducing body fat.

ODM Service

The Laser Freezing Weight Loss Machine is also a perfect tool for businesses that offer slimming and beauty services. Its ODM service allows businesses to customize the device according to their specific needs, such as adding their logo or modifying the machine's functionality. This feature makes it an excellent investment for businesses looking to expand their services or start offering slimming and beauty treatments.

Low Temperature Therapy

The Laser Freezing Weight Loss Machine is equipped with a low-temperature therapy feature that uses temperatures between -15~5 °C to help reduce swelling and inflammation in various parts of the body. This feature makes it an excellent device for individuals recovering from injuries or surgeries, as well as athletes looking to reduce muscle soreness and fatigue after intense training sessions.

In conclusion, the Laser Freezing Weight Loss Machine is a versatile device that can be used in various application occasions and scenarios. Its advanced technology, coupled with its customizable features, makes it an excellent investment for individuals and businesses alike who are looking for a non-invasive solution to body slimming and beauty treatments.

Customization:

FAQ:

Q: What is the brand name of this slimming machine?

A: The brand name of this slimming machine is Laser freezing weight loss machine.

Q: Where is this slimming machine made?

A: This slimming machine is made in China Guangzhou.
